Our Services

Central Air-Conditioning

The majority of residential and commercial air conditioning systems are central air conditioning systems. Our professional team of engineers, installers, and HVAC service technicians has excelled HVAC industry standards in the design, installation, retrofit, maintenance, repair and replacement of central air conditioning systems.

Exhaust System

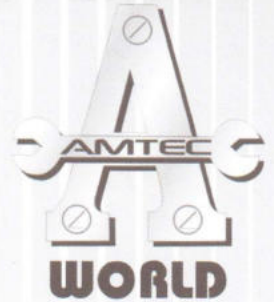

We provide custom designed ventilation solutions to every need of our clients. We are committed to provide satisfactory solution to industrial air pollution and environmental issues of our customers. Precisely for these reasons we are reckoned to be one of the most credible Industrial Ventilation System Suppliers in the market today.

RO Plants Supply

Life without water is impossible contaminated water imperils life and industry. If there is one system of water treatment, which rids off micro contaminants, pesticides, pyrogenics and to a great extent virus and bacteria besides salts and other inorganic contaminants, it is reverse osmosis. We offer extremely reliable and simplified range of customized Reverse Osmosis Water Treatment Plants.

Our Services

Equipment Supply

We offer a wide range of products from Central A.C. Units, Split A.C. Units to Air Handling Units, Cooling Towers and Chillers from various parts of the world. We have installed Miller A.C. Units, Thermax Chillers, Cooper Electric Air Handling Units and Cooling Towers in many places of Bahrain and GCC.

Duct Manufacturing

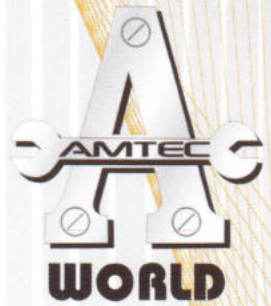

We specialize in sheet metal and duct fabrication for commercial and residential application. Our Sheet Metal Shop is run and managed by people who have been in the trade for years. We understand the business, and what it takes to provide first class products and services. You can count on us; if you want to make sure your HVAC duct work is done right, done on time and done on budget.

Fire Fighting System

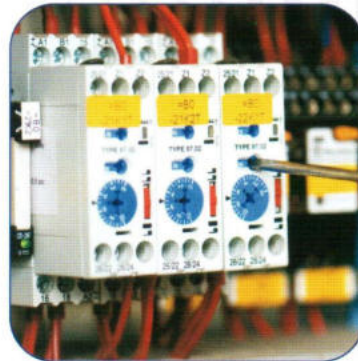

You can count on us for all of your Fire Fighting System needs. Whether you have a single facility or multiple business locations, we have the Fire Fighting System solution just for you. We can supply sprinklers, smoke detectors, fire extinguishers, fire hose reel etc. We are your one stop Fire Fighting System supply shop.

Our Services

Electrical Services

We are a renowned leader in rendering services like building wiring installation and commercial electrical systems provider. We are dedicatedly engaged in providing highly reliable electrical maintenance services. We are backed by a team of professionals who help us in providing all kinds of electrical works.

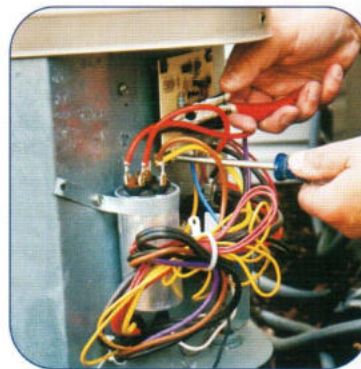

Plumbing Service

The Plumbing Service Division provides service, repair, renovation, retrofit and maintenance of all types of plumbing systems. We have the capability to service and repair a variety of mechanical systems serving both commercial and industrial facilities.

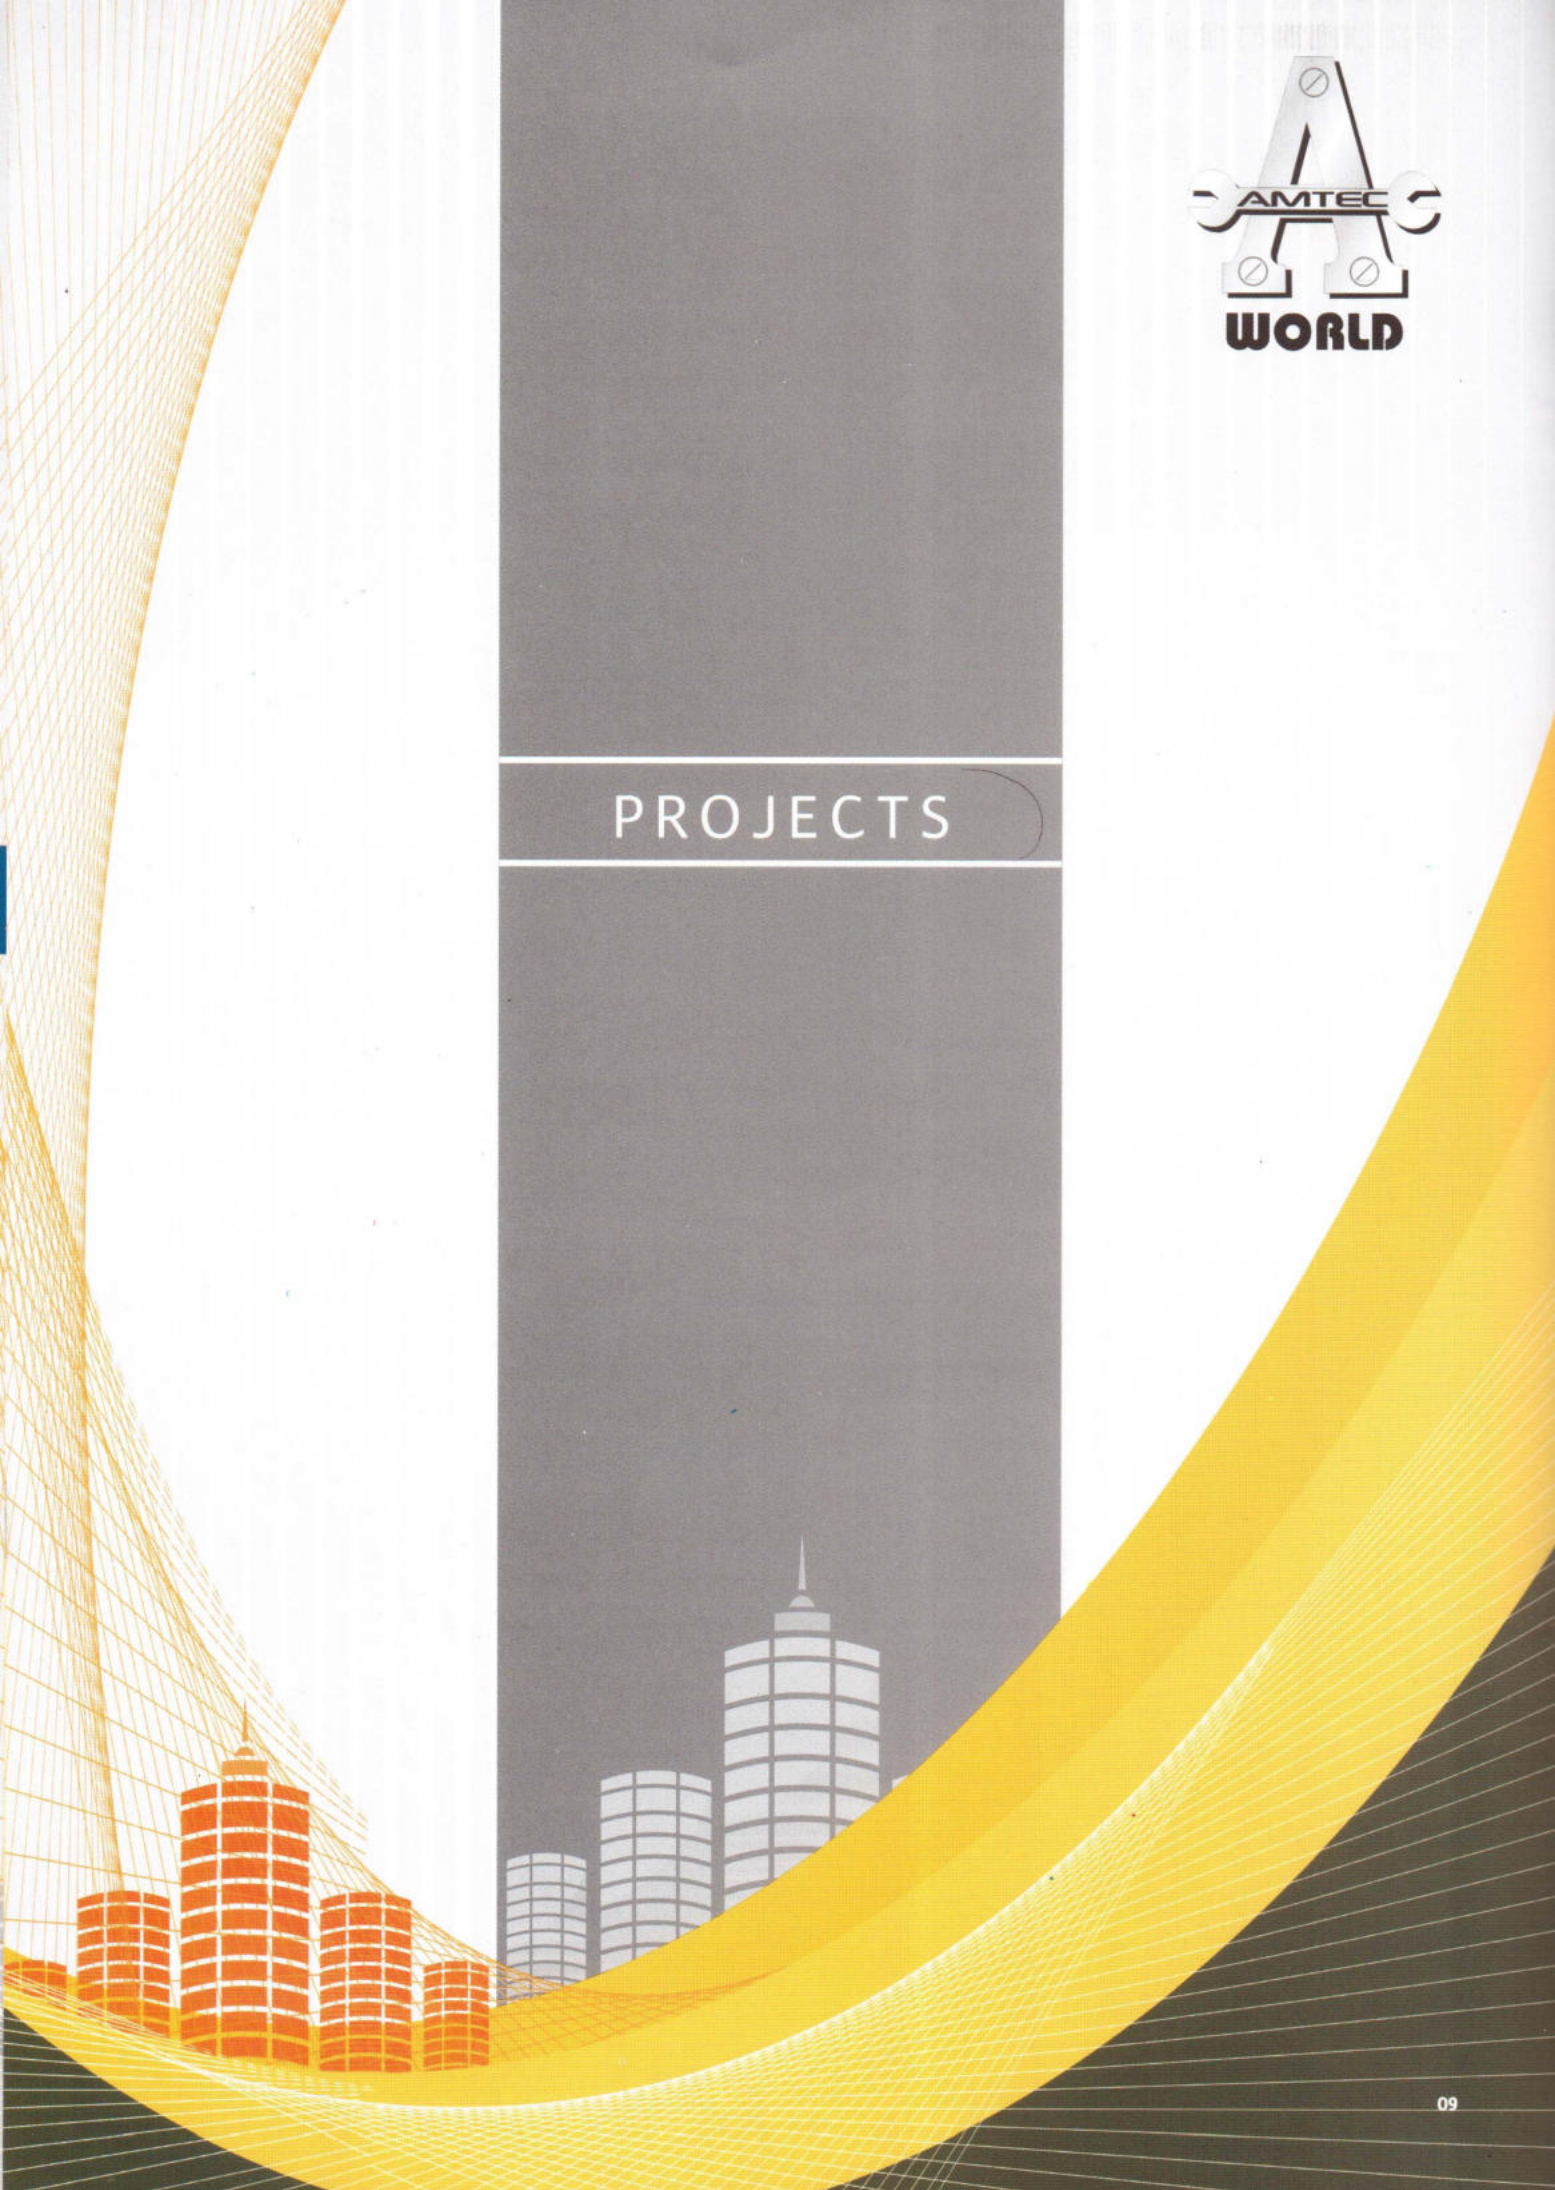

After Sales Services

We provide comprehensive commercial building services to repair and maintain your air conditioning and cooling systems. There are several different types of air conditioning and cooling systems used to keep you comfortable during the hot summer months. Our technicians are extensively trained to make sure your system is up and running with no delay.
